## BIOSECURITY STATUS REPORT

One copy of this assessment of biosecurity status form is to be retained by the owner, one to be retained by the veterinary evaluator, and one to be kept at the office of the Ontario Sheep Marketing Agency as evidence of evaluation. All information is strictly confidential. Not to be used for advertising.

**Biosecurity assessment completed**

**Health Status of Flock (check appropriate boxes):**

- Canadian Food Safe Farm Practices - enrolled
- Certified Organic
- Maedi Visna Flock Status Program: Level \_\_\_\_\_  
 MVFSP biosecurity requirements met? (YES / NO) \_\_\_\_\_
- Scrapie Certification Program: Pathway \_\_\_\_\_ Level \_\_\_\_\_

RISK FROM ANIMALS	LOW	MOD-ERATE	HIGH	RISK FROM PEOPLE & EQUIPMENT	LOW	MOD-ERATE	HIGH
Direct contact with livestock				Limited access to farm			
Introduction of new genetics				Visitors to farm			
Isolation & animal flow				Management of veterinarian			
Indirect contact with livestock				Feed & water			
Management of dead stock				Veterinary equipment			
Management of manure				Shearing			
Risk from non-food animals				Livestock vehicles			
TOTAL SCORE FOR RISK FROM ANIMALS (X2)			/28	TOTAL SCORE FOR RISK FROM PEOPLE & EQUIPMT			/14

LOW RISK = opportunity of introduction of disease & / or spread of disease present in the flock is minimal to absent.  
 MODERATE RISK = producer has instituted some biosecurity precautions that reduce but do not absolutely prevent introduction & / or spread of disease within the flock.  
 HIGH RISK = there are minimal to no biosecurity precautions in place to prevent introduction & / or spread of disease.

**OPTIONAL:**

If the producer wishes to score level of biosecurity, assign for each category a score of "0" for **LOW**; "1" for **MODERATE**; or "2" for **HIGH**. Risk scores from animals are then doubled. Highest possible score is **28** for "RISK FROM ANIMALS" and **14** for "RISK FROM PEOPLE & EQUIPMENT" for a total of **42**. Lowest possible score is 0. This is optional & is only to help producers rank their flock's level of biosecurity and to help motivate improvements.

**BIOSECURITY SCORE:** \_\_\_\_\_ out of 42

Specific recommendations for improvement are to be written on the Biosecurity Assessment Form
